REMARKS

The above amendments to the claims and the corresponding amendment to the specification are being submitted for examination as new claim 4 and amended claims 2 and 3 are believed to now clearly define over the art of record.

New claim 4 was discussed with the examiner before the filing of this response. One change has been made to claim 4 over that discussed with the examiner and that the phrase "inner screw grooves" beginning the last paragraph of new claim 4 has been changed to "screw grooves." The reason for this is that new claim 4 is intended to be generic to the two embodiments disclosed. This can only be done by the noted change.

The examiner is urged to re-examine this application in view of the amendment to the claims noted above and to find claims 2 - 4 allowable over the art of record.

Respectfully submitted,
BACON & THOMAS, PLLC
